

Artemis' Educational Programmes

Supporting academic excellence

Introducing Artemis

Artemis is a non-profit civil partnership with a mission to build the foundation for a more equitable and sustainable future for Greece.

EDUCATION | promoting academic excellence
& enabling access to higher education

SOCIETY | ensuring access to essential goods &
services for vulnerable populations

ENVIRONMENT | preserving Greece's natural
heritage & facilitating marine conservation

Through its integrated and holistic approach, Artemis supports a broad cross-section of Greek society, aiming to bring long-term, positive societal change.

Supporting Academic Excellence

Artemis implements initiatives designed to support students from Greece wishing to pursue higher education in the UK

Programmes tailored for students who meet the following criteria:

- Demonstrated academic excellence (required)
- Currently enrolled (or recently completed) at public schools
- Residing in remote areas of Greece
- Additional socioeconomic factors

SCHOLARSHIPS | for students aiming to pursue undergraduate studies in Mechanical Engineering at Imperial College, London

ACCESS TO HIGHER EDUCATION | for students seeking to apply for undergraduate programmes in the UK

The Artemis Scholarship Programme

In 2024, Artemis launched a scholarship programme for students from Greece wishing to pursue undergraduate studies in Mechanical Engineering at Imperial College, London.

The Artemis Scholarship Programme is an independent initiative that is not linked to Imperial College's admissions process. The programme, including the selection of scholarship candidates, is managed by Artemis. Scholarship candidates are selected based on academic excellence and a range of socioeconomic criteria including but not limited to location, income and family status.

Programme Aims

To **provide opportunities** for students from Greece to pursue higher education at one of the world's leading universities for engineering

To **remove barriers** to access for students wishing to study engineering at Imperial

To **inspire and motivate** the next generation of the world's top engineers

Scholarship Programme Overview

Scholarships | Up to 2 per year, covering up to 100% of tuition fees

Department | Mechanical Engineering (MEng)

Duration | 4 years

Study Mode | Full-time

Fees | £43,300 per year (Overseas)

Scholarship Selection Criteria

Academic Excellence

- Students demonstrating the highest standards of academic excellence
- Students wishing to pursue higher education studies at one of the world's top ranking universities
- Students who have shown a strong interest in mechanical engineering studies

Socioeconomic Criteria

- Students from vulnerable groups
- Students from remote areas
- Students who face significant barriers to accessing higher education outside of Greece

Imperial's Entry Requirements

The following information is indicative, based on Imperial College's usual entry requirements. Always check with the University's admissions office for confirmation of its entry requirements.

<https://www.imperial.ac.uk/study/courses/undergraduate/mechanical-engineering/>

Minimum entry standards

- A-level
 - A*A*A **or** A*AAA
- International Baccalaureate
 - 40 points
- Greek Apolytirion of Lykeio
 - 19.5 overall
 - 20 in Mathematics
 - 20 in Physics

And

- A-levels Mathematics grade A*
- A-levels Physics grade A

Additional requirements

- Engineering and Science Admissions Test (ESAT) - Undergraduate Admissions Test UK (UAT UK)
- UCAS application
- English language requirements (standard level), if required

Artemis' Application Process

Open call (September-January 2025)

- Application submission via [online application form](#)

Shortlisted candidates invited to submit further documentation (March 2025)

- Proof of offer from Imperial
- Engineering and Science Admissions Test (ESAT) - Undergraduate Admissions Test UK (UAT UK) with results
- English language requirements (standard level) or proof of exemption
- 2 referees (at least 1 from an academic setting)
- Questionnaire (personal details, motivation, future plans)

Shortlisted candidates invited for interview (April 2025)

- Referees may also be contacted for interviews

Offers made (May 2025)

- Conditional offers

Scholarship Implementation Process

Confirmation of Imperial conditions being met

- As per Imperial's offer
- Transcripts confirming academic performance
- Confirmation of acceptance onto the course

Agreement between Artemis & candidate

Payments made by Artemis directly to Imperial

Requirements following acceptance:

- Confirmation of successful completion each semester
- Short statement of progress each year
- Possibility of informal meetings with the donor on occasions

Additional Support

Additional financial support for students from lower income households or vulnerable socioeconomic backgrounds may be available.

Students requiring additional financial support can indicate this **during the shortlisting phase**.

Requests for additional financial support will be evaluated on a **case by case basis** and may take on **varying forms** (grant or favourable terms student loan).

Students may also wish to investigate **alternative financial support options** to cover living costs.

The Artemis Access to Higher Education Programme

In 2025, Artemis launched a programme for students from Greece wishing to apply for undergraduate studies in the UK.

The Artemis Access to Higher Education Programme is an independent initiative which aims to support students who demonstrate academic excellence but do not have the means to apply for undergraduate studies abroad. The programme, including the selection of candidates, is implemented by Artemis. Candidates are selected based on academic excellence and a range of socioeconomic criteria including but not limited to location, income and family status.

Programme Aims

To **provide opportunities** for students from Greece to pursue higher education in the UK

To **remove barriers** to applying for a chance to study abroad

To **inspire and motivate** the next generations

Access to Higher Education: Programme Overview

Expenses covered | exam costs
related to higher education
applications

Type of study | undergraduate

Field of study | any

Location | UK

Deadline | applications accepted by
Artemis all year round

Access to Higher Education: Application Process

Application requirements

[Online application form](#) consisting of:

1. Applicant details
2. List of academic results/accomplishments, volunteering, work experience
3. Personal statement (up to 200 words)
4. Up to 3 undergraduate courses they are interested in applying to. For each course, applicants will need to provide:
 - a) University/course description
 - b) Detailed course entry requirements and key application deadlines
 - c) Detailed description of the exams/certifications required for the course including cost and location of where exam takes place

Application deadlines

- Artemis accepts applications on an ongoing basis
- Applicants are responsible for meeting university and exam requirements and deadlines
